LX International

About LX International

Link to a Sustainable Future

LX International creates business solutions that preemptively solve client's pain points and provide differentiated values.

LX International was founded in 1953 as 'Lucky Industry Corporation' and has been changing and growing ever since, and has been building Korea's trade foundation and sharing the trajectory of national economic development and growth.

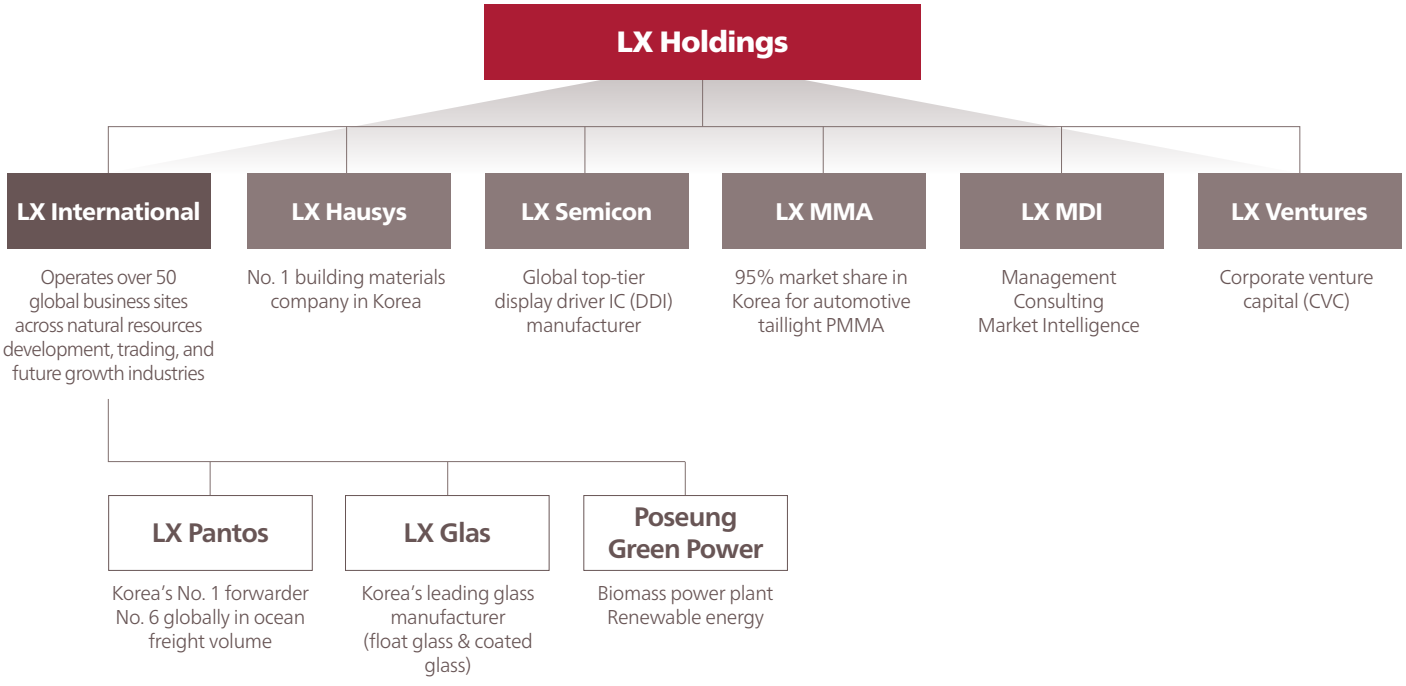

Along with LX International, the affiliates of LX include LX Pantos, LX Hausys, LX Semicon, and LX MMA. Covering many different business fields such as trading, investment, LX has positioned itself as a leading company in the market.

Especially, with Natural Resources, Trading, and eco-friendly Green as its main business domains, LX International has been establishing partnerships with many different clients over the world.

LX Group Governance

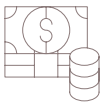

Overview

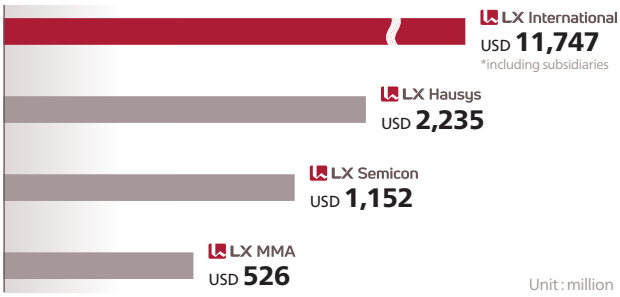

LX is a leading business group in Korea that creates new value by connecting advanced technologies with customers' lives, building on the legacy of its founding company, which has long transformed everyday life through innovation.

FY 2025

Total Revenue

USD **15,660** million

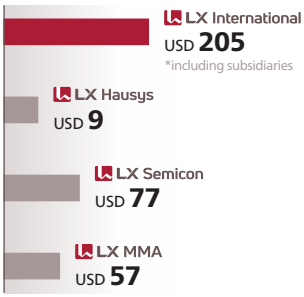

Unit : million

Operating Profit

USD **348** million

Unit : million

*Excluding LX Holdings
*Y25 Average Annual Exchange Rate $1=₩1,422.22

As of the end of 2025

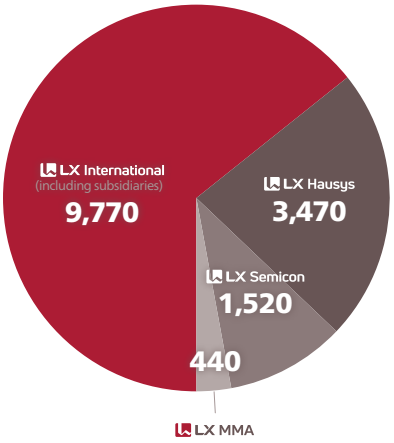

Total Employees

15,200

* Figures do not include performanceand headcount of LX Holdings.

History

1940~

1947

LX Hausys

Founded Lak-Hui Chemical Industrial Corp. (now LG Chem)

LX Semicon

Founded Silicon Works

1953

LX International

Founded Lak-Hui Industrial Co., Ltd.

1977

LX Pantos

Founded Beomhan Hungsan

1991

LX MMA

Founded Lucky MMA

1995

Changed company name to LG International, LG Chem, LG MMA

2000~

2009

LX Hausys

Launched LG Hausys

2014

LX Semicon

Became an LG Group affiliate (Silicon Works)

2015

LX International

Acquired Beomhan Pantos

2017

LX Pantos

Renamed to Pantos

2021

Launched LX Holdings
Renamed to:
· LX International
· LX Pantos
· LX Hausys
· LX Semicon
· LX MMA

2022

LX International

Formally separated LX from LG Group
Established LX MDI
Acquired Poseung Green Power

2023

LX International

Founded LX Ventures
Acquired Hankuk Glass Industries Inc. (now LX Glas)

2024

LX International

Acquired AKP Nickel Mine in Indonesia

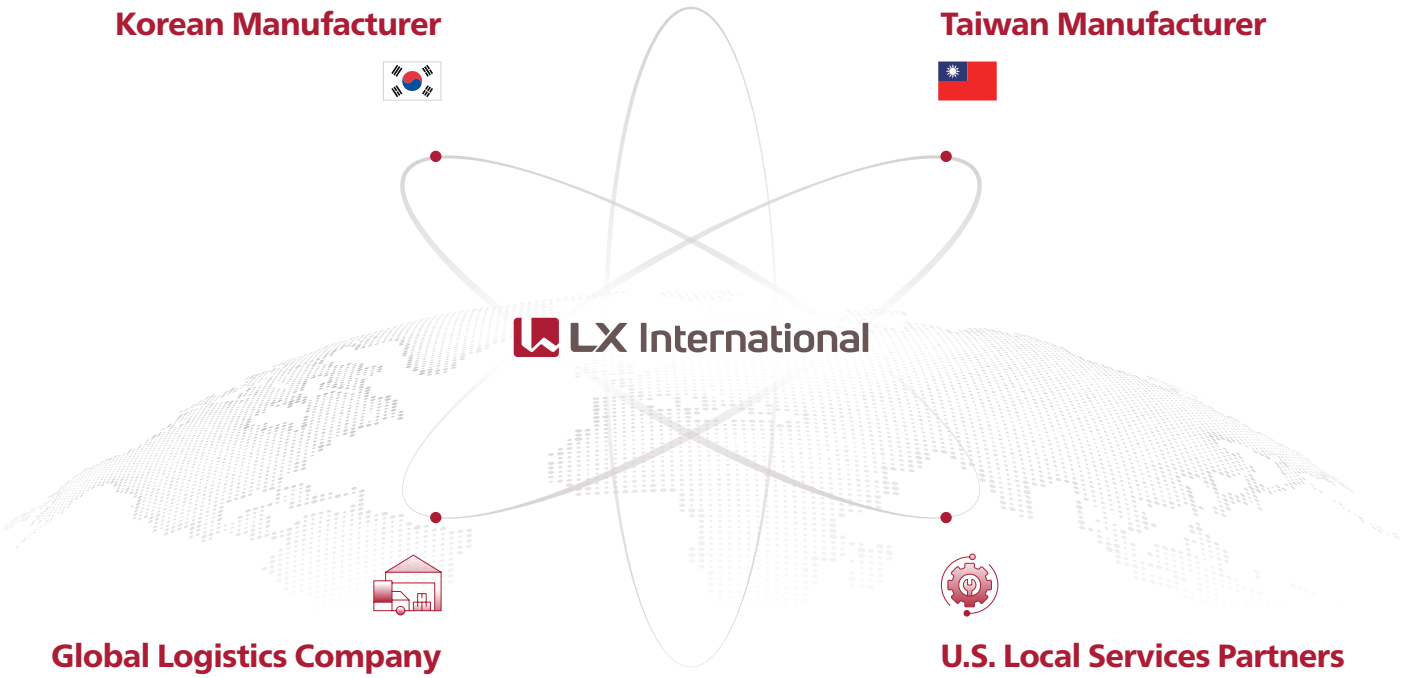

Partners

Approved vendor pool of leading Korean manufacturers

LXI's Core Values

- Transformer Manufacturing
- Freight & Inland Transfortation
- Field Service & Supervision
- Total Services Provider

LX International's Value Proposition

for Electric Equipment Customers

01 Value Gateway for Korean-MadeTransformers

LXI serves as a sourcing gateway for high-quality Korean-made transformers, maintaining an approved vendor pool of leading manufacturers in Korea along with selected partners in Taiwan.
Korean-made transformers are distinguished by world-class quality and short lead times.
In particular, extra-high-voltage transformers equipped with on-load tap changers (OLTC) offer an exceptional lead time of approximately 18–21 months.
LXI conducts thorough pre-inspections of manufacturers' factories and ensures that a 100% P-Bond is secured for all product supplies.

Key Partners

KOREA

Approved vendor pool of leading Korean manufacturers
Factory pre-inspection and 100% P-Bond secured for all product supplies

TAIWAN

Selected partner manufacturers in Taiwan

02 Value Supply Chain Management

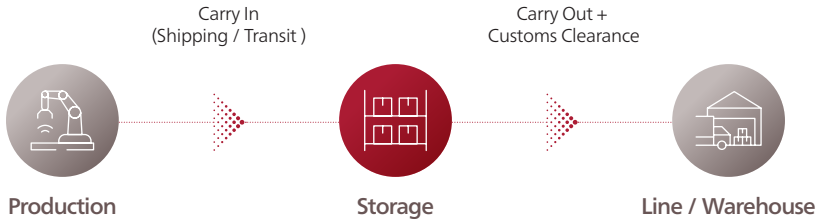

We offer specialized Supply Chain Management capabilities focused on the most critical segments of transformer delivery—ocean and overland transport.

Our affiliate LX Pantos is a global top-tier ocean freight provider, and we have a special relationship with FNS Logistics, which specializes in U.S. domestic overland transport.

We are continuously expanding partnerships with local service providers capable of assembly, installation, after-sales service (A/S), and warranty support.

We also have provided VMI solution to global manufacturers (IT/others).

VMI service flow chart

※ LX International acquired 51% stake of 'LX Pantos*' in 2015
*the world's 6th logistics company ('22. sea cargo base)

03 Value SI Partner

We actively consider participation in Power Plant and Electricity Infrastructure projects including data center as a SI (Strategic Investment) partner.

Our core strengths are Project Development/EPC/ Financing and Investment.

- Investment and management of overseas infrastructure assets such as urea fertilizer plants and cogeneration power plants
- Promotion of renewable energy projects, including biomass in Korea and hydropower in Indonesia
- Development of business strategies and exploration of opportunities to enter emerging markets such as India and the Middle East

Status of Investment Assets

	Urea fertilizer plant	Wuwei co-generation power plant	Musandam power plant	Hasang hydroelectric power plant	Poseung Biomass power plant
Location	China	China	Oman	Indonesia	Korea
Equity ratio	29%	30%	18%	95%	63%
Products	Urea	Electricity	Electricity	Electricity	Electricity
Capacity	1 Million tons	700MWh	120MWh	41MWh	43MWh

Product 1

Power Transformer

Power Transformer

Power Transformer

up to 500kV / 1,000MVA

Key Features

- Designed for transmission and substation applications up to 500kV class
- Proven performance under utility grid conditions
- Engineered for transportation limitations and installation requirements
- Competitive lead times supported by diversified manufacturing sources

Specification

Phase	Single-phase / Three-phase
Frequency	50 / 60Hz
Insulation	Oil-immersed (Mineral Oil / Natural Ester)
Primary Voltage	69kV / 115kV / 138kV / 230kV / 345kV / up to 500kV
Capacity	up to 1,000MVA
Cooling System	ONAN, ONAF, OFAN, OFAF, ODAF, OFWF, ODWF, KNAN, KNAF, KFAF
Winding Configuration	2-winding / 3-winding
Tap Changer	OLTC / DETC available
Oil Preservation System	Conservator / Nitrogen Sealed / Open Breather
Application	Power Generation, Transmission, Substation & Industrial (Data Center)
Standards	ANSI (IEEE C57) / IEC 60076
Lead Time	18-36 months (DDP basis)

Distribution Transformer

Product Type

Pad-mounted Transformer

Pad-mounted Transformer
up to 34.5kV / 10,000kVA

Key Features

- Designed for underground distribution systems
- Available in dead-front and live-front configurations
- Configurable for loop feed and radial feed systems
- Integrated switching and protection compartments
- Compatible with utility, commercial, and data center applications

Specification

Phase	Single-phase / Three-phase
Frequency	50 / 60Hz
Insulation	Mineral Oil / Natural Ester
Primary Voltage	up to 34.5kV class
Secondary Voltage	LV outputs available per project requirement
Capacity	up to 10,000kVA
Cooling System	ONAN
Tap Changer	DETC, tap arrangement available upon request
Application	Utility Distribution, Commercial, Industrial, Renewable & Data Center
Standards	ANSI / IEEE / DOE / CSA
Installation	Outdoor

Product 3

Distribution Transformer

Product Type

Pole-mounted Transformer

Pole-mounted Transformer

up to 34.5kV / 500kVA

Key Features

- Designed for overhead distribution systems
- Available in single-phase bank or three-phase configuration
- Optimized for high reliability and low maintenance operation
- Designed to DOE efficiency requirements

Specification

Phase	Single-phase / Three-phase
Frequency	50 / 60Hz
Insulation	Mineral Oil / Natural Ester
Primary Voltage	up to 34.5kV class
Secondary Voltage	LV outputs available per project requirement
Capacity	up to 500kVA
Cooling System	ONAN
Tap Changer	DETC, tap arrangement available upon request
Application	Utility Distribution, Commercial, Industrial, Renewable & Data Center
Standards	ANSI / IEEE / DOE
Installation	Outdoor

Distribution Transformer

Product Type

Dry-type Transformer

Dry-type Transformer

up to 35kV / 20,000kVA

Key Features

- Reduced environmental and fire risk compared to oil-filled transformers
- Suitable for indoor installation and confined spaces
- Low maintenance with high mechanical strength
- Designed for commercial, industrial, and data center applications

Specification

Phase	Three-phase
Frequency	50 / 60Hz
Insulation	Cast Resin / VPI
Primary Voltage	up to 36kV class
Secondary Voltage	LV outputs available per project requirement
Capacity	up to 20,000kVA
Cooling System	AN / AF
Tap Changer	DETC, tap arrangement available upon request
Application	Utility Distribution, Commercial, Industrial, Data Center, Infrastructure
Standards	ANSI / IEEE / IEC
Installation	Indoor / Outdoor
